

2023 Community Grants Program

The Denver
Foundation

The Denver Foundation

The Denver Foundation is a community foundation dedicated to improving life for people who live in the seven-county Metro Denver region, which includes Adams, Arapahoe, Boulder, Broomfield, Denver, Douglas, and Jefferson counties.

VISION

A Metro Denver that is racially equitable in its leadership, prosperity, and culture.

MISSION

We inspire people and mobilize resources to strengthen our community.

PURPOSE

We are a proactive, collaborative, and resolute leader in reducing racial disparities.

CORE VALUES:

Community Leadership & Racial Equity

The Denver Foundation supports nonprofits that advance our Core Values of community leadership and racial equity. We believe nonprofits have the greatest impact in the community when they make community member engagement a core element of their programs, policies, and overall approach. Organizations must prioritize and demonstrate these values as a key part of their organizational values, practices, and programmatic approach.

In our assessment of applications, The Denver Foundation looks for the following organizational characteristics, in order of importance: a commitment to racial equity, BIPOC and/or constituent leadership, alignment with The Denver Foundation's grantmaking priorities, and the financial health of the organization.

HOW WE EVALUATE APPLICATIONS

We seek to fund organizations that are aligned with the Denver Foundation's values.

We fund 501(c)(3) organizations and collaborative efforts among 501(c)(3) organizations and other groups in the seven-county Metro Denver region that address one or more of the goals described in this booklet. Organizations that have fiscal sponsorship from a 501(c)(3) are eligible to apply.

We prefer requests for general operating support, but we will consider both general operating and program support.

The Denver Foundation wants to follow your organization's progress and commitment to constituent and BIPOC inclusion in staffing and board representation to better serve all populations utilizing your services. We will prioritize funding to support BIPOC-led organizations and will take into account your overall progress and learnings.

Grant awards typically range from \$20,000 to \$50,000.

We prioritize improving the lives of historically oppressed people living in Metro Denver, with a particular focus on people who live in low-income communities and people of color.

We seek to reduce racial and ethnic disparities, as well as economic disparities.

We support organizations that share and demonstrate our Core Values of racial equity and community leadership.

We do not fund proposals that fall outside of our priority areas. The Denver Foundation embraces organizations that work to address two or more of these priority areas. Please check all that apply when filling out the application form.

COMMUNITY MEMBER AND CONSTITUENT LEADERSHIP

Because The Denver Foundation believes that our work is strengthened by constituent leadership, we have created an **Advisory Committee for Community Impact (ACCI)** to provide feedback and guidance, including about the Community Grants Program. This 50-person committee is made up of community members, nonprofit and civic leaders, donors, and other stakeholders. Grant reviews will be conducted by Denver Foundation staff and members of the ACCI. Final decisions about grant awards will be made jointly.

COMMUNITY ENGAGEMENT VS. CONSTITUENT LEADERSHIP

Community member engagement includes the voices of those who currently or will potentially receive services from an organization. Constituent leadership makes space for community members at the decision-making table to help direct and improve programs.

We believe nonprofits are most effective when they engage community members and constituents in planning, programming, and leadership. We support nonprofits that:

- Understand the assets that community members and constituents bring to the work.
- Ask for input from community members and constituents on their programming and organizational direction and put that input to use.
- Organize their work and programming around the self-described needs of community members and constituents.
- Include community members and constituents as members of the board, staff, volunteers, committees, and donors.

CONTINUUM OF COMMUNITY MEMBER LEADERSHIP

Nonprofit develops the capacity to engage community members and constituents beyond providing services.

Relationships are focused on the nonprofit learning and understanding the needs and assets of the community.

Engaging community members and constituents is the standard practice of the nonprofit. Relationships are dynamic. Programs and goals promote and support community member and constituent leadership.

RACIAL EQUITY DEFINITIONS

The following definitions are terms used within the Community Grants Program's Core Values framework:

Diversity is the “who” of a nonprofit. A diverse nonprofit involves people of different races, ethnicities, and experiences. Diverse people are involved as members of the board and staff, and as volunteers and donors. Diversity is often the starting place for racial equity work.

Inclusion is the “how” of a nonprofit. Inclusion is how (or whether or not) BIPOC people can participate fully in making decisions. Inclusive nonprofits embrace the assets, needs, and perspectives of BIPOC people and incorporate them into everything they do.

Racial equity is the “why” of diversity and inclusion. Racial equity is when advantage and disadvantage are not determined by race. Barriers to access are removed, and everyone can participate and reach their full potential.

We believe that diverse and inclusive nonprofits achieve more equitable outcomes. Racial equity is the intended outcome of diversity and inclusion practices.

CONTINUUM OF RACIAL EQUITY

BIPOC people are involved as members of the board and staff, and as volunteers and donors.

BIPOC people can fully participate in planning and making decisions. Differences in assets, needs, and perspectives are valued.

Advantage and disadvantage are not determined by race. Everyone can participate and reach their full potential.
